

Quality Policy

ASC ENGINEERS specialise in Mechanical, Electrical, Fire, Hydraulics, Communications, Energy audits, Project management, Investigations and Reports for Health Care and commercial and recreational facilities. These services are provided professionally, efficiently and competitively to ensure that the company holds a prominent position in the market place.

ASC ENGINEERS intention is to provide our clients with services of the highest quality that exceed their expectations. We seek to achieve this through the application of an effective Quality Management System, excellent management practice and we rely heavily on the personal nature of our services that we provide to our clients.

ASC ENGINEERS takes every opportunity to continually improve our Quality Management System to ensure that the highest standard of service is provided to our clients always. Our quality objectives are achievable, and we endeavour to meet these objectives that are reviewed and updated as necessary to maintain our prominent position in the market place.

ASC ENGINEERS quality management system is designed to meet the requirements of AS/NZS ISO 9001:2015 and we expect that all at ASC Engineers accept the responsibility for performing their tasks in accordance with its provisions; this is communicated by regular management review meetings and monitored by regular internal audits. We believe that quality is to be everyone's personal responsibility and that this coupled with a genuine interest to listen and provide exemplary service to our clients will lead to long standing relationships and dynamic growth for our company.
